CHASE'S Spring Surplus BULLETIN

January 30, 1948: Here is a good assortment of ornamentals for those rush orders of yours. Every item in perfect condition, many being held in our new and modern cold storage rooms. Sorry more of these items aren't larger, but our terrific drought during the past summer lasted from early July until well in November.

Orders filled as received. Please give us alternates to be used in case we cannot supply the exact grades or varieties wanted.

Terms to firms with established credit, 2% 10 Days, Net 30. On orders wanted shipped C.O.D., please enclose a 25% deposit with your order. Packing is extra, and can be figured at about 5% of the amount of your order, although nine times out of ten it does not run that high.
